community-driven planning

Description

**Community-driven Planning**: A process where frontline community members most impacted by climate change share decision-making power with the lead government agency and help produce strategies focused on their priorities and concerns. ([USDN Guide to Equitable, Community-Driven Climate Preparedness Planning](https://usdn.org/pdf/USDN_Guide_to_Equitable_Community-Driven_Climate_Preparedness_Planning), and [MSC Community-Driven Climate Resilience Planning](https://www.mscresilience.org/))
